

# TalentCraft

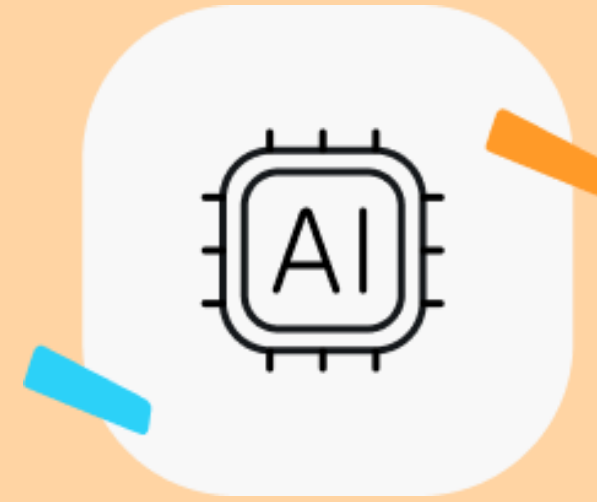

TalentCraft helps you lay solid course foundations - or build complete units within minutes.

### **Engage every learner**

Cater to different learning styles by immersing your people in beautiful courses, rich in interactivity.

### **Enjoy intuitive AI**

Prompting artificial intelligence might not come naturally. Which is why TalentCraft is so intuitive, you won't ever feel obsolete.

### **Target missing skills**

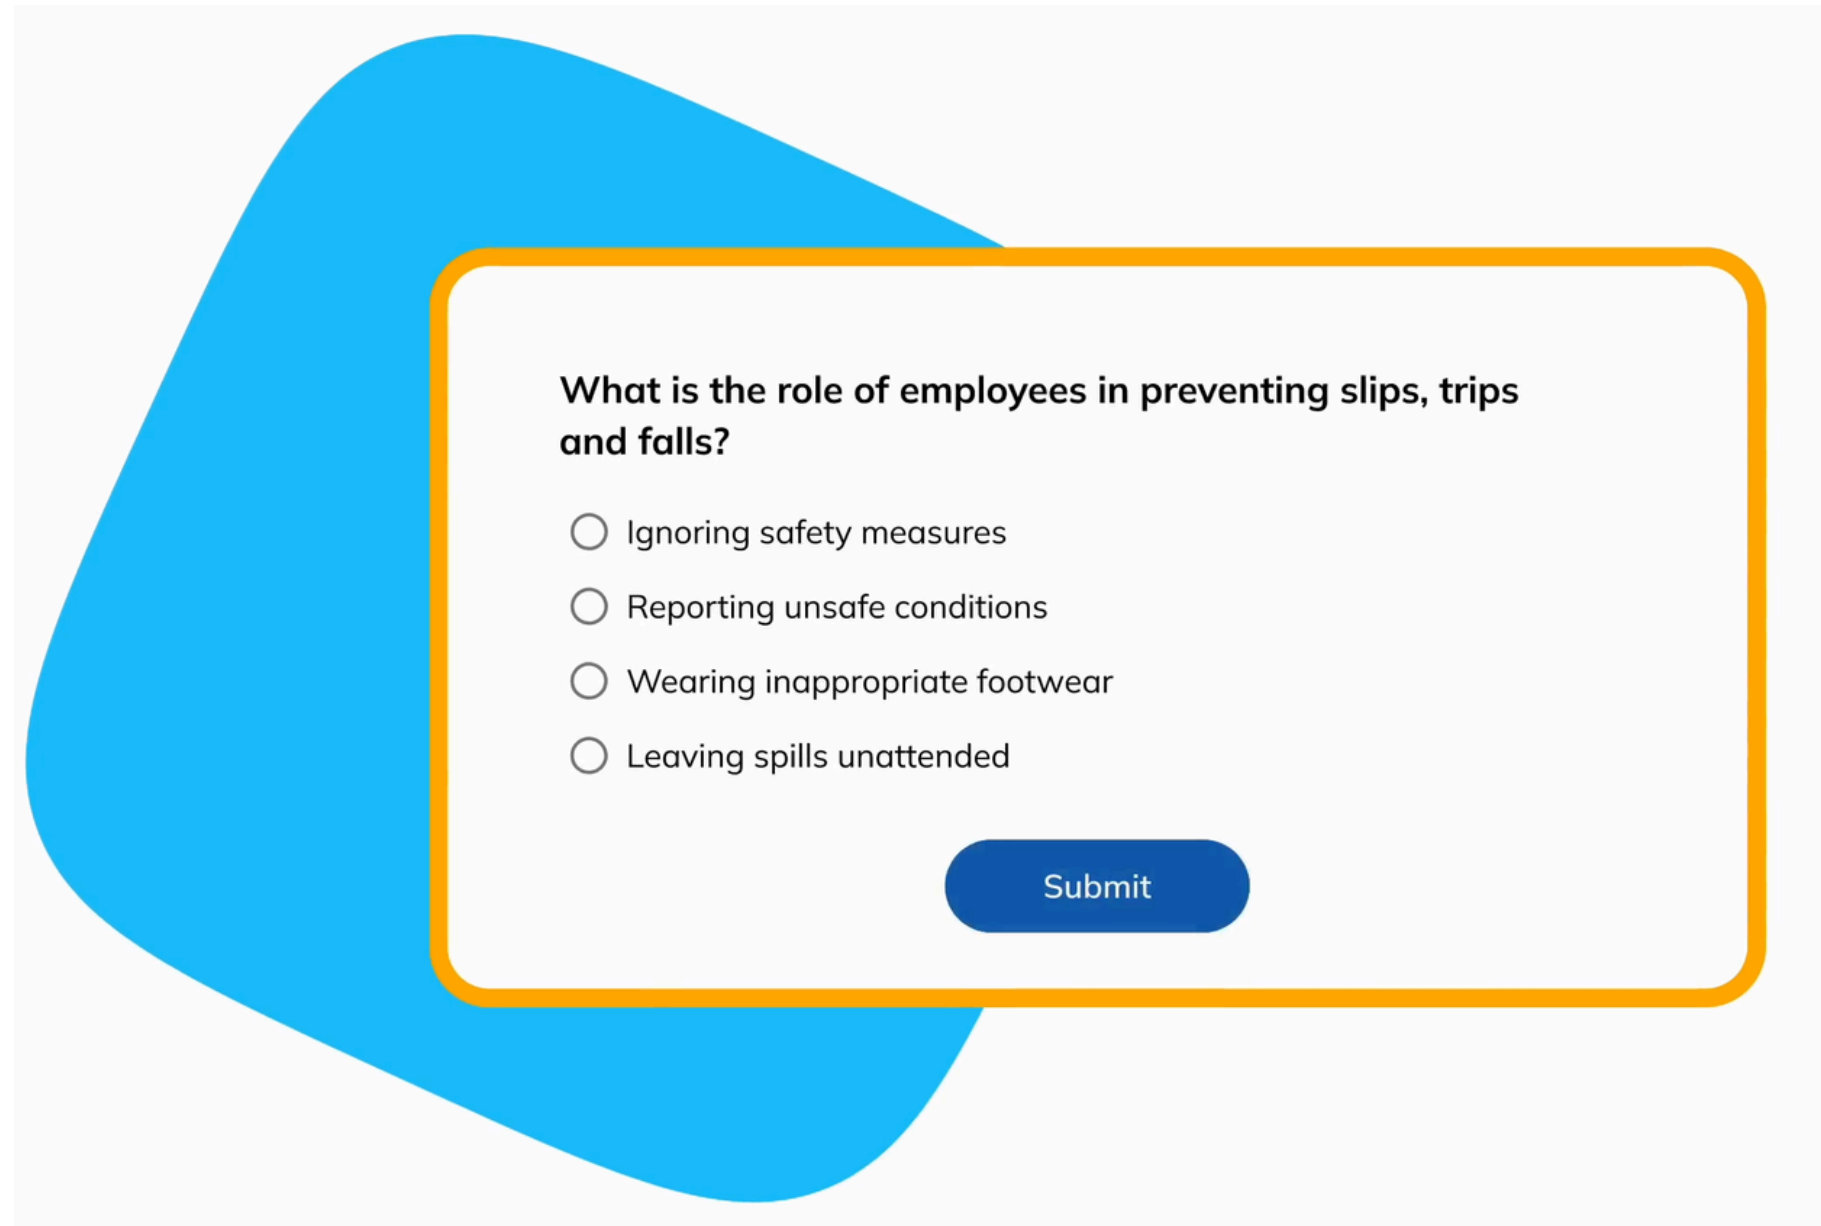

Never mind the skills gap. Because with personalised AI-generated courses, skills don't have to wait to be trained up.

### **Save money**

Never feel the pinch of a tight budget. Relish the savings of a better development timeline and a fairly-priced AI LMS.

# How your new favourite AI LMS transforms training

What is the role of employees in preventing slips, trips and falls?

- ☐ Ignoring safety measures
- ☐ Reporting unsafe conditions
- ☐ Wearing inappropriate footwear
- ☐ Leaving spills unattended

Submit

## Generates entire units

Quit trying to find every puzzle piece when building a complete course. TalentCraft brings every element of training together, so you can add resources, SOPs, and other training materials that can automatically be converted into eLearning content.

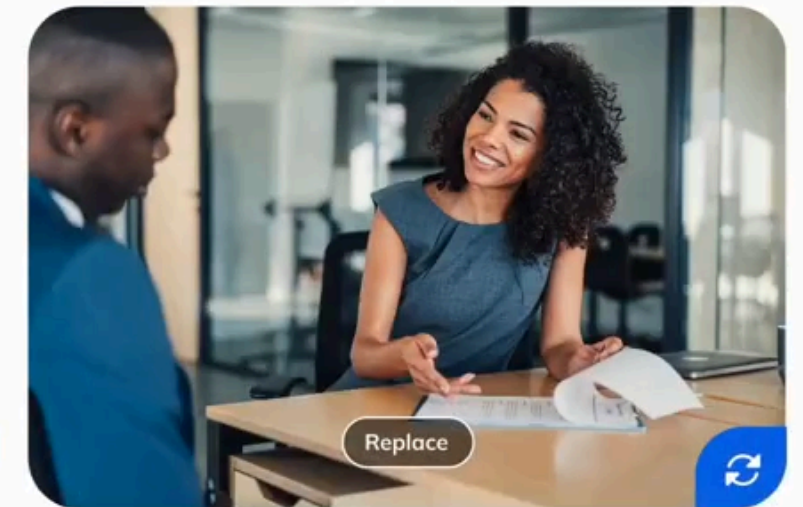

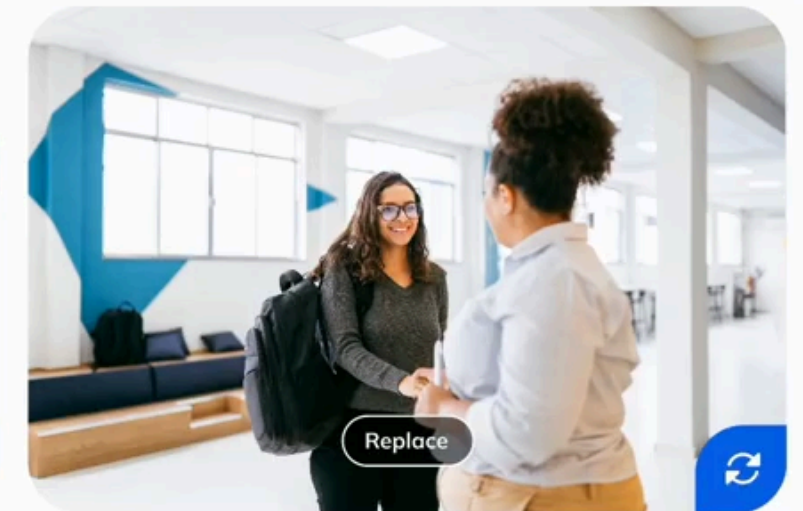

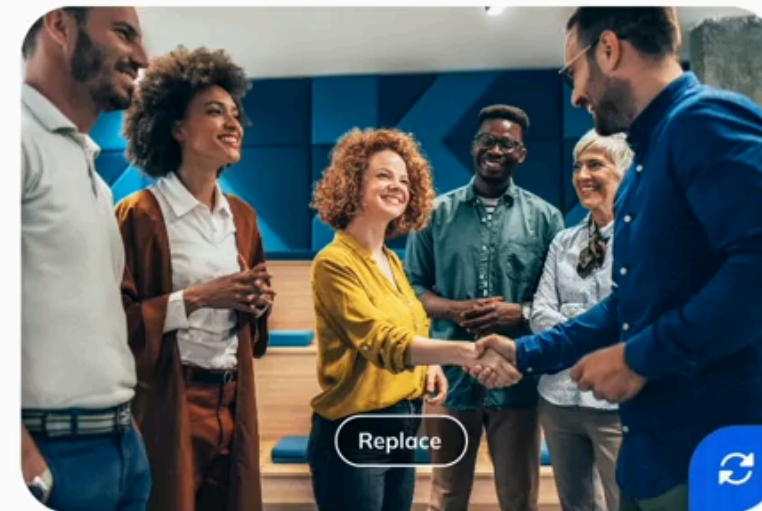

# How your new favourite AI LMS transforms training

## Create images

While TalentCraft could say a thousand words... sometimes a picture will do. Bring training to life with engaging imagery and provide visual references for your learners.
